

The Alignment and Integration of Asset Management and Program Management

Speakers: Robert Raynes, Director – AMCL North America & Duncan Hassall, Motive Power

The US infrastructure sector faces the challenge of maintaining its asset base with constrained budgets and resources, whilst their condition continues to deteriorate. In addition customers, regulators or investors continue to press infrastructure owners to continually deliver value for money. In this presentation, learn how organizations can align and integrate the Asset Management team and the Capital Portfolio/Program Management team, in order to continue delivering value to their customers, regulators or investors.

The Alignment and Integration of Asset Management and Program Management

Robert is a UK Chartered Surveyor with over 15 years' experience in capital delivery and assessment management for infrastructure, property and natural resources clients. Robert's experience has covered supporting the implementation of asset management organizational strategies, governance and delivery models including the New York Power Authority, New York MTA, Boston's MBTA and a number of East Coast asset intensive organizations who cannot be named. Robert has also provided asset management consultancy services to Southern California Edison, Tacoma Power and Dallas Fort Worth Airport.

Duncan Hassall is a Consultant with Motive Power. Duncan's current role is as a project manager for PG&E gas, he is also the lead for Motive Power's Portfolio Governance and Improvement Service Line. In his previous role, Duncan was the Maritime Team Leader for Mouchel (now WSP). For 12 years Duncan supported infrastructure projects at ports, harbors, marinas and coastal defenses. He also led a wide variety of asset management projects at Liverpool's historic docks.
